## FOR IMMEDIATE RELEASE:

### Custom Chassis Unveils the PowerPlatform™, Multi-Application Vehicle, at the World Ag Expo in Tulare, CA

WELLINGTON, Ohio (PRWEB) February 15, 2008 – Custom Chassis, Inc. introduced to the public at the World Ag Expo in Tulare, CA the PowerPlatform™ vehicle (<http://www.customchassisinc.com/platform.php>). It has been designed as a high-speed on-off highway vehicle for the agricultural, municipality, and construction markets. A unique combination of features creates an unrivaled utility and multi-application vehicle. The features include:

- 3-mode, **Four-Wheel Steering**.
- **Four-Wheel Drive** with lockable on-the-fly interaxle and axle differentials.
- Industries largest **two-passenger forward mounted cab**.
- **32 mph standard** top speed with optional 45mph available.
- Mid-mounted **260hp Cummins engine** and **6-speed ZF powershift transmission**.
- **12' Cargo platform** area with optional 12 yard dump box.
- 26,000 lb cargo capacity at high-speed and **44,000 lb cargo capacity** at 5mph or less.
- Optional front/rear 11,000 lb **3-point hitch and PTO**
- Front/rear **hydraulic swing arm suspension** with built-in on-board scale.

“This is a new class of vehicle, and we are proud to set the standard.” said Matt Tipple, President of Custom Chassis. “To date no other vehicle offers the features, performance, operator comfort and sophistication to do so many applications so well. The forward mounted cab provides excellent visibility while the huge rear platform area provides superior cargo capacity.”
